CONTACT (/CONTACT-CONQUER-ADDICTION)

Renaissance Ranch is an alcohol and drug rehabilitation program for adult men. In addition to clinically proven and evidence-based treatment, we use the traditional 12-Step approach, combined with spiritual and faith-based principles as they relate to alcohol and drug addiction. It has been our experience that the most successful treatment programs utilize these best practices.

We provide gender-specific treatment for addiction in order to better help our clients succeed in long-term recovery. Addiction, as a disease, tends to affect men and women differently. For example, men today are at a higher risk of engaging in substance abuse than women. As such, we tailor our recovery program to fit the specific needs of each gender. We have been awarded the Best of State Program here in Utah and have an Alumni Program that is unparalleled.

(801) 864-4823 (tel:(801) 864-4823)

Awards & Accreditations:

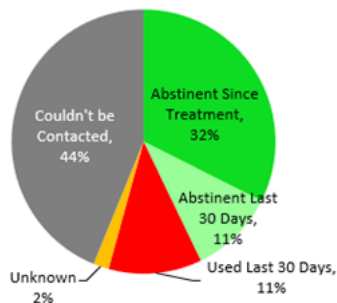

Success Tracking:

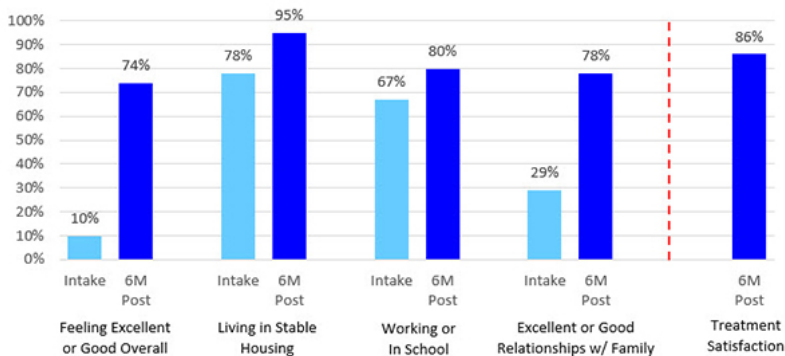

In independent research by Vista Research Group (<https://www.vista-research-group.com/>), after an average stay of 168 days, **43%** of Renaissance’s patients were reachable and claimed to have been abstinent for at least the last 30 days at 6 months post-treatment:

Drug/Alcohol Usage at 6 Months Post-Treatment
(among 210 patients discharged between 1/1/2019 & 6/30/19)

Of course, true recovery encompasses more than just stopping using harmful substances. By 6 months post-treatment, Renaissance patients reported major improvements in other important indicators of recovery success:

Other Important Measures of Recovery Success & Satisfaction with Treatment
(among 113 patients completing entire 6 month survey)
